M. Roberson ant Manager for nmental Restoration RFFO

SMITTAL OF THE REVISED DRAFT PROPOSED PLAN/DRAFT RESOURCE ERVATION AND RECOVERY ACT (RCRA) PERMIT MODIFICATION AND ONSE TO COLORADO DEPARTMENT OF PUBLIC HEALTH AND ONMENT (CDPHE) AND ENVIRONMENTAL PROTECTION AGENCY (EPA) IENTS FOR OPERABLE UNIT (OU) 15, INSIDE BUILDING CLOSURES, TÓ THE RTMENT OF ENERGY/ROCKY FLATS FIELD OFFICE (DOE/RFFO) - SGS-123-95

Submit the Revised Draft Proposed Plan/Draft RCRA Permit Modification from the Department of Energy/Rocky Flats Field Office to CDPHE and EPA

rpose of this letter is to transmit the Revised Draft Proposed Plan/ Draft RCRA Permit ation to DOE for submittal to the regulatory agencies for full agency review.

aft version of the Proposed Plan complies with the approach as agreed to by FFO, CDPHE, and EPA during discussions on April 3, 1995 and stated in EG&G Flats letter 95-RF-03217. This approach changes the approach from No Action to the ig:

- The Proposed Plan/Draft RCRA Permit Modification will not be titled with a specific remedy selection.
- All six Individual Hazardous Substance Sites (IHSSs) in OU 15 will be clean closed under RCRA.
- The No Action Remedy selection will be used to close IHSSs 178, 211, and 217 with regard to the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA).
- Individual Hazardous Substance Sites 179, 180, and 204 will be deferred, with regard to CERCLA, until ultimate disposition of the buildings in which they reside. On approval of the Corrective Action Decision/Record of Decision, IHSSs 178, 180, and 204 will be removed from the Site Interim status list. In summary, upon approval of the Corrective Action Decision/Record of Decision, these areas will no longer be considered Individual Hazardous Substance Sites and Operable Unit 15 will be closed as an Operable Unit at Rocky Flats Environmental Technology Site.

The EG&G-proposed milestone (as submitted on February 9, 1995, letter number 95-RF-01570) for submittal of the Draft Proposed Plan/Draft RCRA Permit Modification of March 21, 1995 was met with the submittal on March 21, 1995. This draft was not officially transmitted to CDPHE and EPA in support of the March 31, 1995 proposed milestone. The document being transmitted with this correspondence is an extra document revision previously unplanned for. As a result of this revision, the proposed internal milestone of submittal to EPA/CDPHE on March 31, 1995 was late by one week. However, there is no current Interagency Agreement milestone for this deliverable, and this revision reflects the approach agreed on by EG&G, DOE/RFFO, EPA, and CDPHE.

If you have any questions regarding this correspondence, please contact Rich Ray at telephone extension 8557.

S. G. Stiger, Director

Environmental Restoration Program Division
